FYCIC is a project of Cantiere Giovani in partnership with Aventura Marão Clube, Društvo za razvijanje prostovoljnega dela Novo mesto, Asociación cultural Espacio Plaza Sarean.

However, the implementation of the project would not have been possible without the support of a strong network of associations, volunteers, citizens and students. Thanks to them it was possible to design and validate the activities proposed by the toolkit in different socio-cultural and geographical contexts, in order to identify strengths and criticalities and subsequently to improve their content, in view of their greater versatility and adaptability in different European contexts.

To all of them goes our sincere gratitude, in particular to:
